Fax (781) 335-8506

Ladies and Gentlemen,

Thank you for your interest in the *Control Consultants Inc. Graphics Club* Library program.

This offering is a club membership based program that provides all members with a Library of High Resolution 3D imagery and animations designed by CCI for the Tridium and Symmetry products. An online Tridium demo of this library is available at the Control Consultants inc. website (www.controlconsultantsinc.com). The club membership includes all the animations in our Tridium Demo on a CD-ROM. Your subscription also provides for a yearly CD update to the library as new imagery becomes available which occurs frequently.

The 3D imagery is not intended to be an exact depiction of all the installed equipment for a given application and is intended to be a general representation of today's mechanical equipment. No custom modifications will be issued. New imagery is added yearly as it is produced..

The cost of membership to this service is a one time **\$500.00** dollar purchase and a yearly renewal fee of **\$200.00** dollars due annually on March 31st.of the year following initiation to maintain your active status to enable the CD updates.

Don't miss this opportunity to save your engineering team time and effort and put yourself ahead of the competition by providing a high end graphics package to your customers.

Sincerely,

Control Consultants Inc.
